6. Public Hearing for BZA 25-4, a request from Mitch Westfall to allow a variance from Article 20, Section 20-801 of the zoning regulations of the City of Abilene, KS. The applicant is requesting to install a detached accessory structure (carport) within ten (10) feet of the primary dwelling in the rear yard. The site address is 1004 NW 2nd St., Abilene, KS.

The staff report was discussed. Chair Zelinkoff opened the public hearing at 4:08 p.m. The applicant was present at the meeting to confirm his intention to place a 12'x15' carport in the rear yard approximately 5' from the primary dwelling. A discussion was held regarding the cross alley next to the property. Talber Kanz was present at the meeting to voice her concerns regarding vehicular traffic driving through there at high rates of speed and being accident-prone. The findings of fact were noted that this is not a life safety issue with fire or building codes, and that the carport will not present a safety hazard as there are no walls on the carport, allowing visual sight to all pedestrians in the alley intersection. The public hearing was closed at 4:22 p.m.

Motion by Boyd to approve the variance request, seconded by Mead. Motion carried unanimously 5-0. There is a 30-day appeal period which shall expire on May 8, 2025.

VARIANCE REQUEST FROM THE ABILENE WRESTLING FACILITY DEVELOPMENT COMMITTEE

The Abilene Wrestling Facility Development Committee has received school board approval to build a privately funded wrestling practice facility on USD 435 property just south of the A.H.S. tennis courts. The current design includes a driveway and 19 parking spaces, including one A.D.A. spot. These parking spaces would help alleviate the already congested parking on Mulberry Street. The total surface area of the driveway and parking would be approximately 12,600 sq. feet. We received a quote to do this area in concrete and it came in at \$107,100. With this being a privately funded facility, that added cost would make the already challenging fundraising effort a much bigger hurdle to overcome. That amount would be a very significant percentage of the total project cost and would most likely lead us to remove the driveway and parking areas. Due to this high cost, we requested a quote to cover the area with rock to a total depth of 6". This quote came in at \$11,200 and would allow us to provide the driveway and parking areas as currently designed.

We request that the Board of Zoning Appeals allow us to use gravel on the driveway and parking areas of this project. Thank you for your consideration.
