

## NOTICE OF STUDY SESSION

For Abilene City Commission  
4 p.m. Monday August 20, 2018  
Dwight D. Eisenhower Memorial Building  
419 N. Broadway Avenue, Abilene, Kansas

**TO: Abilene City Commission**  
**FROM: Austin Gilley, City Manager**

### PURPOSE

The City Commission's Study Sessions are for the purpose of providing the Commission the opportunity to study items in more detail. The City Manager is responsible for the meeting and helping manage discussion.

### OPEN FORUM

This is an opportunity to bring up items to be informally addressed.

### STUDY ITEMS

- **2018-19 Priority list update:** Status of projects related to the City Commission's priorities.
- **Floodplain review update:** City Engineer Mark Bachamp plans to attend the Study Session to provide a brief update on the state/federal floodplain map review and levee considerations.
- **Capital Planning:** We were not able to complete our capital plan this spring, and much has happened since then. We will revisit our project list and plan going forward.
- **Governance Policy:** The City adopted in 2011 the policy that establishes roles, expectations, and goals for the City operation. The policy requires annual review in April, and the Commission voted to table the review until after the budget was complete. The policy can be found online at: <http://abilenecityhall.com/documentcenter/view/423>.

END###
